At crp 2020 Universities of Technology will address challenges that planet earth is facing

- Integrating social sciences and humanities in teaching and research
- Educating contemporary scientists and engineers
- TUs' contributions to mastering energy transition and coping with climate change
- How to organize interdisciplinary cooperation in education and research –reconsidering university structures – examples of good practices in teaching and research
- From interdisciplinarity to transdisciplinarity research including civil society
- TUs working with COPERNICUS, Europe's eyes on earth
- TUs' roles in developing public awareness and understanding of global challenges

See you in Compiègne
