

# Addressing the challenges that planet earth is facing

**Cranfield**  
University

**Prof. Simon Pollard OBE DSc FREng**  
Pro-Vice-Chancellor, International

39<sup>th</sup> Conference of Rectors and Presidents  
of European Universities of Technology  
September 17-18, 2021, UTC Compiègne

# Origins and a signature approach to learning

<https://www.cranfield.ac.uk/about/about>

Cranfield University was established as a College of Aeronautics in 1946. Since then, we have developed a global reputation in engineering, management, defence and security and in environmental sustainability.

<https://www.cranfield.ac.uk/about/history-and-heritage>

- A specialist **postgraduate** University **creating leaders in technology and management.**
- Our expertise faces **the business sectors we serve.** We call these 'Themes'. Each is led by an international Professor. We are motivated by the **practical difference** we make to business, commerce and Government.
- We offer pgCert, pgDip, MSc, MBA, PhD, EngD award-bearing courses and a host of **professional and executive programmes** in management and technology specialisms.

# Institutional Academic Partnerships – a selection

Muscat University, Oman

ENSAM, France

ESTIA, France

UTC, France

RMIT University Australia

NTU Singapore

NCAA, China

Jiangsu University, China

BOKU, Austria

Universität für Bodenkultur Wien  
University of Natural Resources  
and Life Sciences, Vienna

Polytech, France

DIAT, India

UPM, Spain

École des Mines, France

Northeastern University, US

Georgetown University

Vellore, India

Beihang, China

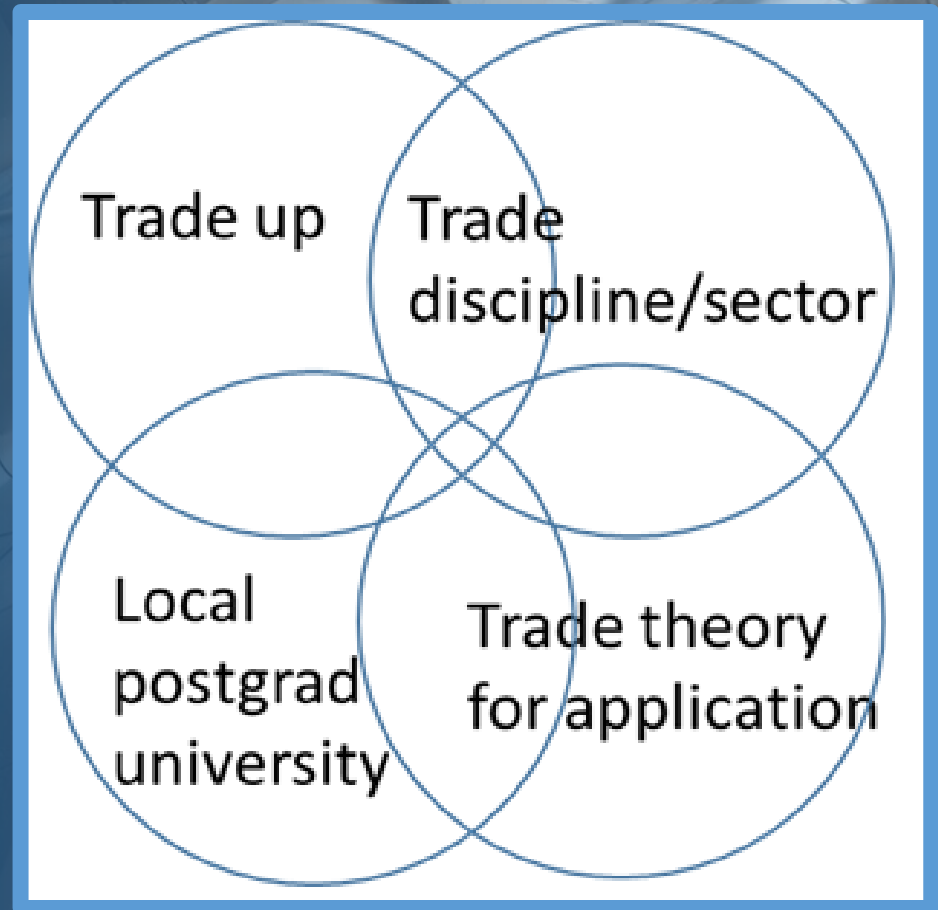

TNAU, India

# The sectors we serve

**Our expertise is in our deep understanding of technology and management and how these work together to benefit the world**

- Aerospace
- Defence and Security
- Energy and Power,
- Environment and Agrifood
- School of Management
- Manufacturing
- Transport Systems
- Water and Design

## A premier learning experience for professionals

8,000

Executives attend our **Continued Professional Development (CPD)** programmes every year

5,000

**Postgraduate** students every year

800

**Doctoral** students every year

- Come from outside the UK (100+ countries)
- Study part-time while in employment

# Environmental protection through engineering, data science and management

1970s

**Enabling concepts:**  
units processes,  
flow, mass balance

wastewater treatment

water treatment

air pollution control

solid waste management

1980s

community  
engagement,  
duty of care

noise and nuisance

ionising radiation

hazardous wastes

1990s

environmental  
health  
engineering

contaminated land

risk assessment

global change

2000+

resource  
productivity,  
planetary health

circular economy

environmental models

design and life cycles

**Enabling sciences:** chemistry, biology,  
hydrology, physics

toxicology, soil  
& atmospheric  
sciences

multiphase  
flow, design  
studies

# The challenges planet earth is facing

**Warming, resource depletion, biodiversity loss' [...] and for employable students seeking returns on their postgraduate award:**

***circular economy, green finance, sector transitions, 'Society 5.0', advocacy, artificial intelligence, autonomy, getting to net zero, UN global goals, technology pipelines, breakthrough innovation, regulatory design, green recovery trajectories***

**Cranfield**  
Energy and  
Power

# The Cranfield Masters: a different way of learning

These Themes have specialised **elective modules**, instead of a group project, allowing you to tailor your learning yet further

- Defence and Security
- School of Management

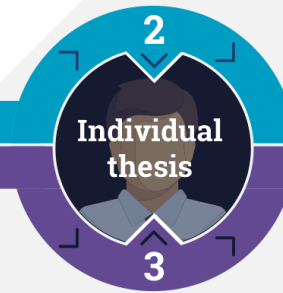

- Aerospace
- Energy and Power
- Environment and Agrifood
- Manufacturing
- Transport Systems
- Water

An introduction to your postgraduate degree through **blended learning**, building in complexity and depth as modules progress

Our signature **group project**, industry-focussed and delivered in teams to high professional standards

A deep dive into a sector-specific **research** topic, on your own, with expert supervision

## Management and technology skill sets

Postgraduate skill sets that foster readiness for impact in employment

- ***Synthesis of specialist learning***
- ***Reflective about behaviour in teams***
- ***Timely, readable reports for industry***
- ***Project management & deadline pressure***
- ***How the 'firm' works, how technology works***

Cranfield  
Water

# Global citizenship

Our best students use the full University experience to hone their personalities for an engaged and connected world.

- *making a difference*
- *engagement in community life*
- *shaping the student's contribution*
- *'help me form my purpose'*
